HANOVER COLLEGE, HANOVER, INDIANA, APRIL 26, 1926

No. 20

WOMEN GIVE ATHLETIC EXHIBITION

The annual athletic exhibition of the women of the college was given Thursday evening, April 15, before a large and appreciative audience. The following program was presented:

- 1 Freshmen — Floor work, Dutch Dance.
- 2 Irish Jig — Odessa Wnlker, Margaret Darragh.
- 3 Peter Pan — Martha Jemison, Marjorie McBroom.
- 4 Golly-Wog Dance — Sophomore Girls.
- 5 Prince Charming (solo) — Mary Royce.
- 6 Sleeping Beauty — Joy Butts, Angela Farrell, Maurine Jacobson.
- 7 Highland Fling — Louisa Plummer.
- 8 The Shoemaker — Isabel Jackson.
- 9 Sophomores — Floor Work, Reap the Flax.
- 10 Aladdin — Marjorie McBroom, Martha Jemison.
- 11 Polish Dance — Lois Morrow, Elizabeth Post.
- 12 Mock Faculty Meeting — Sophomore Girls.
- 13 Pandora — Margot Lambertson, Patience Dryden, Doris Davisson, Angela Farrell, Juanita Steinmetz, Undine LaFollette, Louise Leinenweber, Edna Huelson, Evelyn Davis.
- 14 Sailors Hornpipe — Louisa Plummer, Rachel Randolph, Minerva Donnell.
- 15 Ali Baba — Ruth VanVleet, Marjorie Eberhart, Hope Rankin, Nellie Trexler.
- 16 "A" Squad — Freshmen and Sophomores.
- 17 Old Time Favorites (Yankee Doodle, Polly Wolly Doodle, Comin' Thru the Rye) — Margaret Darragh, Rachel Randolph, Minerva Donnell, Bessie Catshaw, Louisa Plummer, Alice Peterson.
- 18 Hanover Taps — Physical Education Department.

In a program so long and varied it is impossible to speak of the individual numbers and performers. Each part was well done and showed that each participant had made faithful preparation. The earnestness, capability and co-operative spirit of Hanover students was again given fitting expression and it was an exhibition of which any group of college women might well be proud.

Miss Irene Portass who has been in charge of the women's work in physical education for the past two years deserves great credit not only for the success of this exhibition, but for her efficient and loyal work throughout. She has inspired her students and enlisted their hearty co-operation, and her earnest work for the women of the college merits the recognition it has won from loyal Hanoverians.

ARE AWARDED SENIOR HONORS

Miss Hulda Ferree and Miss Jones were chosen by the faculty last week as Valedictorian and Salutatorian, respectfully, for the Senior Class of 1926 which will graduate this next June. These honors are the highest distinction that may be attained by any student in the school, and it represents a notable achievement in scholarship. The award of these distinctions is based upon the grades made during the Sophomore Junior, and Senior years. Miss Ferree has the honor of having the highest grades of any Senior. She has an average grade for three years of 2.722. Miss Jones was a close second for highest honors with an average grade of 2.677 for three years.

PHI MU DANCE

The Pi Mu Spring Term dance was held last Saturday night, April 17, in Beta hall. The hall was attractively decorated. The large lights in the hall, the windows, and the orchestra stand were draped with pink and white crepe paper in a manner that added to the beauty and charm of the whole affair. Because of the initiation of the seven pledges on that afternoon preceding the dance, the dance was an initiation dance. Music was furnished by Jack Stollard's Orchestra of Louisville, Kentucky, and it was a brand of music that made the dance a real success. Alumnae and out-of-town guests at the affair were Misses Mary Margaret Johnson, Mildred Humphrey, Gertrude Jantz, Esther Darr, Hazel Doup, Leona Day, and Mrs. Frank Fisher.

NEW HOME FOR THETA KAPPA NU

Indiana Alpha of Theta Kappa Nu is to realize her dream of the past few years when the chapter moves into a new house next fall. Negotiations have been completed for a lease of the Pender home on the drive to the college campus. The house is located across from the Phi Delta and Phi Gamma houses, and its arrangement is very suitable for a fraternity's use. The rapid growth and progress of Theta Kappa Nu on the campus has made the new home a necessity, and the future success of the fraternity is assured by its achievements in the past two years.

The elevator to success is not running—Take the stairs!

BETA THETA PI ANNUAL FUNCTION

At three o'clock Saturday afternoon, April 17, in Beta Hall ten pledges were initiated into Beta Theta Pi at the annual initiation services. Those to be initiated at that time were: Ray McCoy of Lafayette, Indiana; Everett Schnitzius of Indianapolis; Norvin Veal of Central City, Kentucky; Charles N. Lagel of Mitchell, Indiana; John C. Blackburn of Shelbyville, Indiana; Paul J. Blackburn of Shelbyville, Indiana; Raymond Park of Franklin, Indiana; Harold Windmiller of Geneva, Indiana; David B. Tallman of Cincinnati, Ohio; and Walter Elliot of Cincinnati, Ohio.

Following the initiation a delightful banquet was given at the Hillside Hotel in honor of the new initiates. Dr. Ballard of the faculty was toastmaster at the banquet. Those to respond were the delegates from the other four Beta chapters in this district: Dr. K. P. Miller of Franklin, Mr. Frank Fisher of Nabb, Dr. C. B. Gutelius of Indianapolis, and Roger Steinberger, Raymond Park, and John Bill Pfaff of this chapter.

ALPHA DELTS INITIATES

Phi Chapter of Alpha Delta Pi held initiation services for Hope Rankin of Brownstown and Dorothy DeForrest of Chicago, Friday, April 16, at 4 P. M. After the service a dainty luncheon was served in the sorority hall in honor of the new members.

HANOVER NOSES OUT INDIANA CENTRAL

DEAN COULTER LEAVES PURDUE

Recent word has been received here of the resignation of Dean Stanley Coulter as dean of men at Purdue University. Particularly are Hanoverians interested in this announcement, because Dean Coulter is a Hanover graduate, and one of our alumni who has achieved great success and brought honor and distinction to our college. While a student here he was a leader in his class, a splendid scholar, and a strong worker for his school. He was a member of the Beta Theta Pi fraternity. Hanover is justly proud of the fine record made by Dean Coulter, and we are deeply interested in his future.

Dean Coulter has carried out an intention, announced two years ago of resigning from the faculty of Purdue University and will sever his connection with the institution on July 1. Prof. Coulter has been a member of the faculty thirty nine years and for the last seven has served as dean of men. In this post he has come into intimate contact with many of the students and has been an important factor in the university through the fine influence he exerted among the young men.

The dean is one of the state's leading educators and scholars and is widely known throughout the United States. He is author of numerous papers and books on scientific subjects, is past president of the Indiana Academy of Science, and has taken a prominent part in its activities. Dean Coulter has been deeply interested in the conservation of Indiana's natural resources, and this interest was reflected in his present position as chairman of the state conservation commission.

Dean Coulter has not announced his plans for the future, but doubtless he wishes to devote his time to research work and writing an ambition which his arduous duties as a member of the faculty did not permit him to gratify. Although no longer connected actively with Purdue his interest in the university will not diminish and his counsel doubtless will still be sought. With greater leisure a veteran scientist should be able to give attention to those labors of love to which he has looked forward for years. Retirement thus means nothing more than greater opportunity for living the life of the ideal scientist, uninterrupted by routine tasks. The veteran ed

TRACKSTERS WON VICTORY IN FIRST HOME MEET OF SEASON—63 TO 62

McKeand and Hetherington for Hanover, Mendenhall for Visitors Score High

In one of the closest meets seen on Woods Field for several years, Hanover nosed out Indiana Central College last Saturday by a 63-62 score. The Hilltoppers registered nine firsts in amassing their total, but fell short on seconds, scoring only three and a tie for the runnerup position in the high jump.

McKeand and Hetherington, both of Hanover, tied for most points, each scoring fifteen. Each man made three firsts, making a clean sweep of the events in which they were entered. Mitchell, of Hanover, who was entered in six events besides the relay, won two first and three thirds for a total of thirteen points.

Mendenhall was high point man for the visitors with fourteen as a result of one first and three seconds. Aborgast was a close second with eleven points.

In the hundred yard dash, won by Hetherington, Carlock, who finished second, was disqualified for running out of his lane, as was also a Centralite. This put the other visitor, Mendenhall, in second place and left third vacant as there were but four men entered.

In the relay race, run off after the scoring events of the meet were concluded, Hanover won with ease. The Mitchell to Furnish to Carlock to Hetherington combination worked with speed and precision and "Cockeye" brought the bamboo back a good hundred feet ahead of his opponent.

Although figures are not available for meets prior to 1924, five local track records were broken in this meet. Two "ICY" men and three Hilltoppers were the perpetrators. McKeand bettered his own mark for the mile run finishing in 4 minutes 53.8 seconds. In the javelin throw, Mitchell eclipsed his mark of last year, hurling the ash 139 ft. 1 inch. Gant bettered any previous mark in the shot put with a distance of 37 feet 6 inches. Noble in the high hurdles and Mendenhall in the pole vault were visitors to break records in those events.

Summary:
100 yard dash—Hetherington, H;

LUTHER BURBANK

Luther Burbank was buried last week under the old Lebanon cedar tree that stands in a corner of the old Burbank garden, across the highway from his home. The tree marked a favorite meeting place and will be a shrine, in accordance with the desire expressed by Mr. Burbank. A semi-public mausoleum will be erected, and there Burbank will rest while his work goes on about him. At the time of his death Burbank was 77 years old and was recognized as one of the world's greatest scientists.

Thus marks the end of the eventful and useful career of Luther Burbank, who has passed on to a "hereafter in which he had no faith", and has said that he could not "believe in a life after death". The significant characteristics of Mr. Burbank's life was his ambition to better the condition of his fellow men. He made more than 100,000 separate experiments with plants, involving the planting, observation, pollination and propagation or destruction of a million plants. Of this vast number he selected and recommended some 6,000 which he deemed a value to humanity.

Often the scientist is separated from the man and the man from the thinker, but, to appreciate him as we should, this last trait ought not to be neglected. An immense amount of criticism was showered upon him, because he expressed his ideas when they did not coincide with custom and tradition. To criticize a man of Burbank's ability would seem to indicate confidence on the part of the critics. Though we do not agree with Burbank, we must revere him for being frank about his opinions in the face of much adverse comment.

THE HERITAGE OF THE PAST

Of the past, we are told, we have inherited many of the advantages that we now enjoy. If this be so, what are the advantages, and how did we inherit them?

The privileges of a free education is one of the most important of the legacies willed to us. Education was fostered in America since the landing of the Pilgrim Fathers. Schools and colleges have sprung up for the purpose of making an enlightened and well-educated country of people and indirectly for a better government.

All of the arts and sciences have come wholly from the past or have had their origin in times gone by. Surely this is the richest endowment ever given.

Are we the posterity, appreciative of this heritage? If we are not, we have missed one of the milestones of civilization to receive and to give.

Contributed

"Y" NOTES

The Y. W. Cabinet met at the dormitory for a short meeting at 3:30 last Tuesday afternoon. At four o'clock a joint meeting of the Y. M. and Y. W. cabinets was held at the "Y" building. Because of the unusual mildness of the weather the meeting was held out-of-doors. It was decided to discontinue the 6:30 Sunday evening services and have in place of it a vesper service on the hillside at five o'clock.

This plan will be tried as an experiment in an effort to increase student attendance at these meet-

ings. Plans were made for the next joint meeting Tuesday. The girls are going to do cleaning work inside the hall while the boys will work on the lawn outside. The girls will serve light refreshments. Any student is invited to come and participate in these activities. At the joint meeting ways and means of reviving old interest and creating new interest among our students in the work of the "Y" were discussed.

A public library is a university in continuous session.

Philosophy is the microscope of thought.

From Below The Clouds

Miss Anna W. Williams, the U.S. "Silver Dollar Girl," died April 18th at her home in Philadelphia. Miss Williams was sixty eight years old at the time of her death, and she had spent a lifetime teaching and acting as principal of the girls school at the House of Refuge. In 1876 her profile was judged to be the most perfect of the time and chosen to be reproduced on the silver dollar of our American money. At the time of the judging she refused repeatedly to sit for an artist, and then only did so with the understanding that her identity would be concealed. She was soon discovered, however and her name was revealed. With this came offers for theatrical engagements, which she refused. She was willing to work at the House of Refuge for sixty dollars a month.

Roland Loche, of football fame, recently tied the world's record for the hundred yard dash at a meet at the Memorial Stadium at Lawrence, Kansas. Loche beat Dellamare of Notre Dame by little more than a yard with a time of 9.6 seconds. He was also a member of the record-breaking Nebraska relay team.

At the same meet, Charles Hoff of Norway, world's pole vault champion, failed to break his outdoor record of 13 feet 11 13-16 inches. His best clear was 13 feet 4 inches.

Another item of interest to the world is the rise of a second 'Babe Ruth'. This person's real name is 'Peggy' O'Neil. She has acquired her nick name by her remarkable baseball ability. Miss O'Neil has just signed a contract for a trans-continental tour of fifteen games which brings her a salary of \$87,500. She is the only girl member of the team and plays first base with great ability and ease. They say the Irish dip their fingers in about everything, so Miss O'Neil seems to be living up to the reputation. What is there left for a woman to do except become a member of the professional football squads?

For the first time in five years, Mauna Loa, the highest active volcano in the world, has suddenly begun so erupt. The crater is 14,675 feet high. The previous flows have been preceded by tidal waves, but none have accompanied the recent eruption. This volcano has poured forth more lava in the past century than any other volcano in all the world. It is one of the three volcanos in Hawaii which have been set aside as a National Park by Congress. The eruption presented quite a beautiful sight, but the flows itself was quite dangerous. The village of Hoopuloa was completely demolished. It was one of the few typical Hawaiian villages existent in the islands today. The volcano has already caused a lot of damage; and it was not known by the last report how great the damage would be.

Ten automobiles are stolen daily in Paris, police report. Several gangs have been captured who made a business of stealing cars, changing them in their own garage, and selling them.

CAMPUS BRIEFS

There was a track meet here last Saturday, and the temperature wasn't particularly warm, but just the same, some of the boys used the opportunity to display their knickers. We hope the weather is more favorable next week, fellows, for we hate to have you suffer so much 'for arts sake'!

Miss Betty Montgomery was a visitor in Hanover last week end. Consequently Carl Gant and Eddie Hunter got up Sunday morning for breakfast, and dressed up too! Must be awful to have a compeditor living in the same house.

At last it looks as if spring had came! The weather indicates it, the students indicate it, and even Louie Bumen is taking hikes in the woods. Of course not by himself.

A lot of us good people were much disturbed the other night, by a noise that came from the vicinity of the Dormitory. It was nothing to be worried about, however, for the Beta's were just serenading the girls, and no one was seriously affected.

Of all the humorous situations!!

Bill Sanders is in a bunch that are trying to raise mustaches. Poor Bill has certainly got an up hill fight.

Zoology specimens certainly offer some folks good opportunities to take hikes. Always make your work 'pleasant'.

What do you think! Carl Bogardus rated the Phi Mu dance! How did that ever happen?

Did you ever hear one of the boys from Minnesota tell about the pigeons that took such a big drink, they couldn't see the sun for two hours! Was that the way it went, Ray?

A former Hanoverian was a visitor at Hanover for the week end, and for as many days Ray Hetherington was in his right mind. He couldn't see any body.

I see the Phi Delt's are preparing for summer by fixing up their window screens. They must have reasons to think the flies will be attracted to their house this year.

The Phi Gam boys are busy cultivating the soil. They are trying to raise some grass in their front yard.

FACULTY NOTES

Dr. Hamilton, who has been lecturer in the Social Ethics class for the past six months, has been forced to resign his position because of ill health.

Prof. and Mrs. Woodworth motored to Indianapolis last week-end, where they were week-end visitors.

Prof. C. C. Carson went to Bloomington a week ago Thursday where he attended the Conference of Elementary School Supervisors, held there April 15-17.

Mrs. Lagrange spent several days in Franklin, Indiana last week visiting friends.

Dr. Millis went to New Albany last Tuesday where he attended a meeting of the Presbytery.

Miss Coddington left a week ago last Friday afternoon for Terre Haute, where she attended a meeting of the Indiana Dean of Women Association. After the meeting Miss Coddington went to her home in Crawfordsville to visit her mother who has been seriously ill for several weeks.

Life Among The Greeks

PHI GAMMA DELTA

The Phi Gam House has been the scene of great peace and tranquility. They even had silencers on the celery—for 'Doc' Canfield, Section Chief, was here on his last visit of the year.

Julian Steadman was visiting us the other night. He was telling us that he didn't miss his appendix much. Yes, he had an operation, and he says he is going to give the X-ray plates away for Christmas presents.

Jinks has learned a new piece on his flute entitled, "Refrain--from Smoking."

It is reported that Whiz Propst was in Scottsburg, Seymour, and North Ver on the other night. Tell us about it, Connors!!

PHI DELTA THETA

Calvin Dobbins, ex-'26, Seymour Indiana, was in Hanover Sunday. He is a great magnet in the Milling Industry of Seymour. He is trying to interest the college in putting in a course in Agriculture.

Prof. Fitzgibbon was in Carrollton this last week-end to see the County Clerk. Be careful, Fitz. Women has been the downfall of more than one good bachelor.

Frank Campbell made several visits to Lexington to care for his business interests. He is buying up old wells and cutting them up for fence posts.

SIGMA LAMBDA CHI

Estol Ellerman was a visitor in Versailles last week-end.

Dyer Bakes was confined to his room last week with pneumonia.

John Maxwell of New Marion visited the chapter here last Tuesday.

Gayle Graston was in Dupont last week-end.

THETA KAPPA NU

John Trapp was a visitor at Vernon last week-end.

Amos Jackson and Milton Snyder spent last week-end at Versailles.

Robert Busted was at his home in Milan last week.

Wonder why Ed Williar had to go home last week-end? There must have been a good show on in Louisville.

"Spud" Campbell rested long enough from his tennis activities last week to attend class twice.

PHI MU

Marguerite Fisher of New Washington, Gertrude Jantz of Wyoming, Ohio, Hazel Doup of Columbus, and Esther Darr of Edinburg were back in Hanover last week-end for the Pi Mu initiation and dance.

ALPHA DELTA PI

Edith Sauley spent the week-end in Hanover, being here for the Alpha Delt initiation.

Odessa Walker was taken to the King's Daughters' Hospital at Madison last Saturday night where she underwent a successful operation for appendicitis. Odessa is getting along nicely, and everyone hopes that she can be with us again before so very long.

BETA THETA PI

John Park and George Hittler are spending the week-end in Franklin, Indiana.

Work on the Beta landscape project is progressing very nicely.

There were about ten men at the Beta house this week who were unusually anxious to refer to their timepieces, especially when doing so required the opening of a coat to get their watches in their vests.

Charlie Schneider of Columbus, Ohio was in Hanover last week end and was a visitor at the Beta house.

Pi and Wooglin have maintained a spirit of strict neutrality during the last week.

Dr. K. Palmer Miller of Franklin, Indiana and Mr. Frank Fisher of Nabb, Indiana were the alumni who returned for the Beta Theta Pi initiation and banquet last Saturday.

In The College World

A professor in the University of Chicago has published an article in the *Astro-Physical Journal* which tells of his discovery of a new universe like our own. It has bright and dim stars and a nebulae in a heaven like ours. Observations were made from the Wilson observatory.

At Wittenburg College, Springfield, Ohio, 73 per cent of the students attend church regularly, according to a recent report.

Janet Rioch, a student of Butler College, Indianapolis, has won the \$1,000 prize given by the American Chemical Society for her essay on "The Relation of Chemistry to Health and Disease". College students all over the United States competed in this contest.

The stadium of Syracuse University, New York, was modeled after the old Greek coliseum.

In a recent debate on the question, "Resolved: That this house deprecates the present condition of athletics in Eastern Colleges", Harvard won by a vote of the judges, while Wesleyan, on the affirmative, got the larger vote of the audience.

Maurice G. "Red" Robinson of Wabash College, all-western forward in basketball, a champion pole-vaulter, a leader in tennis, and an honor student, will represent Wabash College and the Middle West in the National oratorical contest, to be held at Evanston, Illinois, under the auspices of the Northwestern School of Speech. He won the right to this honor at Appleton, Wisconsin last week when he met and defeated the cream of college orators from Wisconsin, Illinois, Missouri, and Kansas. The subject of his oration is, "The Eleventh Commandment" and it deals practically and forcefully with the problems of youth today. This will be the fourth time that Wabash will have been represented at the National Contest in the past seven years.

A fund of \$100,000 has been left to the University of Chicago for use in cancer research.

Tables are reversed once a year at Antioch college, a co-educational institution at Yellow Springs, Ohio, when students are permitted to tell their candid opinions of their pro-

fessors. It has been said that these signed statements have cost several instructors their position on the faculty staff of the institution.

For the first time in twenty years, a woman student has enrolled in the civil engineering course at the University of Texas.

CLASSICAL CLUB MEETS

The Classical Club held its first monthly meeting of the Spring Term, Wednesday, April 7, at the "Y" hall. The meeting was informally opened by the playing of two Italian selections on the gramophone. The members of the Club read the thirteenth chapter of 1 Corinthians from the Latin Testament. The reading was followed by repeating the Lord's Prayer in Latin.

Professor Gold gave a most interesting talk on "Conditions in the Near East". He gave an interesting account of the events which lead up to the expulsion of the Turks from Greece and the Greeks from Turkey, and how the King of Greece lost his throne. Special emphasis was placed on the present condition of the Turks and Greeks, and the destitute condition of 100,000 Greek refugees.

Having received a request for the renewal of the membership of the Classical Club in the Society of American Friends of Greece, Prof. Gold presented the proposition to the members and an unanimous vote was cast for the renewal of the membership. This is an organization in American Colleges for helping refugees from Turkey to become settled in Greece.

REMEMBER THIS

When Abraham Lincoln was a young man he ran for the legislature in Illinois and was badly swamped.

He next entered business, failed, and spent seventeen years of his life paying up the debts of a worthless partner.

He was in love with a beautiful young woman to whom he became engaged then she died.

Later he married a woman who was a constant burden to him.

Entering politics again, he ran for Congress and was badly defeated.

He then tried to get an appointment to the United States Land Office but failed.

He became a candidate for the U. S. Senate and was badly defeated.

In 1856 he became a candidate for the vice-presidency and was again defeated.

In 1858 he was defeated by Douglas.

He was shot and killed in 1865.

And yet he was AMERICA'S
GREATEST CITIZEN.

Cockeye: Say, I saw your girl today and she said that she dreamed she was dancing with you.

Jonesie: She did?
Cockeye: Yes, and she woke to find one of the girls hitting her on the foot with hammer.
