Name: Anna Uhlmansiek Class year: 2022

Connection to the College (student? faculty? alum? friend of the College?):

Describe your day on May 15, 2021.

Tell us whatever you'd like at whatever length you'd like. We think future students will especially appreciate hearing about concrete details -- What can you see and hear from where you are right now? What did you do for fun today? Did you cook or eat anything special? Did you work or do chores? Who did you spend time with? What did you learn?

On May 15, 2021

- This day was not anything special.
  - I played DND online with an alum.
  - hung out w/ my friends for pizza at the shoebox
    - ↳ talked about May term & plans for the summer
  - Ended my Saturday with watching Disney movies with my friends after we made dinner together.
  - Went on a walk to look at the stars.
  - Did not do any homework because I had no homework.

What do you think you'll remember most about surviving the pandemic?

Tell us what whatever you'd like at whatever length you'd like. We think future students will especially appreciate memories that help them picture your life and relationships -- Have you taken up any new leisure activities in the last year, or have you changed how you eat, or cook? If you're on campus, what was it like in classrooms or dining spaces or locker rooms or offices? Have you been able to stay in touch with family or friends (including classmates and other Hanoverians)? How? What have you missed the most in the past year?

I will remember the virtual movie nights, & all the times I wished I could have hugged my friends. Coming back to campus made me learn that I was different than before. A smaller social battery, caring more to see my friends. Wearing mask during class was different but not bad. I glad it might be over soon. I can't wait for the new term.
